Outlook 2011 Setup For Gmail Password And ConfigureWhen prompted, simply enter your email address and password and configure automatically.. Currently, it should be at least version 14 3 4 as of this guide If you expand the Gmail folder, youll notice some redundancy with the previously mentioned mailboxes, but its nothing you have to worry about.. Ive also removed the previous introduction Ill get straight to the point I hope you find this guide more more relevant and useful than it was before.. These folders are linked with what you already see in the sidebar Unfortunately, Outlook takes some initiative and hides folders like All Mail, even if youve allowed it to sync on Gmails side.

outlook setup gmail pop3

Go to the Preferences, select General, and check the box, Hide On My Computer folders.. If you uncheck All Mail, I'd recommend creating an Archive label in Gmail This second section is basically for the picky among us, and can affect how Gmail labels appear in other email apps you might use.
